

## **Improvising Across Boundaries: An Unconventional Colloquium**

21-22 June, 2014

UBC Robson Square Room C400

Coastal Jazz and the International Institute for Critical Studies in Improvisation (IICSI) will also host a two-day colloquium on Saturday June 21 and Sunday June 22, 2014, focused on the theme of improvising across boundaries. We welcome proposals for presentations from the artistic and scholarly communities as well as from the community at large, about the ways in which improvisation – in music, in theatre, in dance and in text – can offer strategies and practices to help us to negotiate with boundaries and borders. Many people must face the challenges presented by nationalism, by multiculturalism, by race and racism, or by the politics of gender, of history and of social class. How can improvisation provide performers and audiences with the means to encounter and to come to terms with the ways in which we have undertaken, historically and in the present day, various practices of inclusion and of exclusion, of community-building and of confrontation? Can improvisation enable new modes of cultural and social understanding?
